The screenshot shows the phpMyAdmin interface for the 'penjualan\_produk' database. The 'barang' table is selected, displaying 4 records. The table structure is as follows:

kode_barang	nama
1	buku tulis
2	pensil
3	buku gambar
4	bolpoin

The interface includes a sidebar with a database tree, a top navigation bar with various tools (Jelajahi, Struktur, SQL, etc.), and a main content area with search and display options.

The screenshot shows the phpMyAdmin interface for the 'penjualan\_produk' database. The 'detail\_penjualan' table is selected, displaying 2 records. The table structure is as follows:

kode_penjualan	kode_barang	harga	jumlah
1	4	2	3
2	3	5000	5

The interface includes a sidebar with a database tree, a top navigation bar with various tools (Jelajahi, Struktur, SQL, etc.), and a main content area with search and display options. A status bar at the bottom indicates the current URL and provides a link to the table's structure.
